

ActivLearning

Professional Development Courses

The **ActivClassroom** *by* PROMETHEAN

In the **ActivClassroom** **We're part of a movement.**

Promethean's Professional Development Department continues to grow to best meet our customer's professional needs so we can assist with integrating the ActivClassroom. Through this transition, we continue to provide training for ActivStudio version 3.7, as well as offer new courses for our latest software, ActivInspire. To help you distinguish between our offerings, we have compiled this guide.

Please remember that all courses are sequential and upper level courses should not be taken until the prerequisites are met.

ActivLearning Online

ActivInspire courses are now available on the new site, ActivLearning, Learning.PrometheanPlanet.com, a sub-site of Promethean Planet. All ActivLearning users must first have an account on Promethean Planet, www.prometheanplanet.com, and must pre-register for a free course, either Introduction to ActivInspire or Migrating to ActivInspire, in order for the user profile to be copied to the ActivLearning Moodle site.

An Introduction to ActivInspire

Free

Migrating to ActivInspire

Free

Migrating from SMART to ActivInspire

Free

Three free introductory tutorials will get the Inspire user started. Whether you're brand new to Promethean Activsoftware, or migrating from ActivStudio or SMART products, the tutorials will guide you through the new interface, tools, and browser features. Courses are available in Studio or Primary format.

Level 1 Skills

\$29

Available in either Studio or Primary format, the Level 1 Skills course teaches the main features of ActivInspire through the use of interactive tutorials and assessments. Working at your own pace, participants will receive instruction in using resources, presentation tools, integrating the internet, advanced features, as well as incorporating the Learner Response Tools (e.g. ActivExpression). Participants will have access to a forum for personalized support.

Level 2 Curriculum Developer

\$150

Learn to create interactive and pedagogically sound flipcharts appropriate to your curriculum. Tutorials and video presentations of the ActivClassroom, as well as activities and "good practice" discussions will aid the user in successfully achieving personal and professional development goals. A self paced course allows teachers to work at times convenient for them, while mentor and peer support enhance the course objectives.

Level 3 Training & Resources Developer

Coming in 2010

Designed for the advanced user who plans to act as a trainer within his/her own school or district, assisting new ActivClassroom users and developing applicable curriculum resources. More details coming soon.

*See a course catalog for additional information.

Private and customized courses are available.

For additional information, contact us.learningadmin@prometheanworld.com.

Promethean Learning Online

ActivStudio and ActivPrimary, version 3.7 online courses are still available for PC and Mac users at www.PrometheanLearning.com/US. Please keep in mind that Promethean Learning is expected to be phased out in 2010/2011, as we complete the migration to ActivInspire and ActivLearning.

Level 1 Foundation Skills

Free

Promethean Learning's Level 1 Foundation Skills Course provides you with the basics of the ActivStudio or ActivPrimary software. This free course will teach participants how to utilize the basic tools in order to create exciting, interactive flipcharts that will engage students in any classroom.

Level 1 Advanced Skills

\$50

With this 180 day self-paced course, teachers have the opportunity to explore many of the advanced features of the ActivStudio and ActivPrimary software, such as restrictors, containers, and actions. They will also learn how to utilize outside resources within their flipcharts, such as Microsoft Office products and the World Wide Web. Other tools and resources featured are the student response tools (ActiVotes), the Resource Library, and interactive tools, such as a clock. Five assessments and uploading a flipchart are final course requirements.

Level 2 Curriculum Developer

\$299

The Level 2 Curriculum Developer's Course for teachers who wish to enhance their teaching and truly integrate the ActivClassroom. Level 2 focuses on pedagogy and how to promote higher level thinking skills within the ActivClassroom. The opportunities for personal growth are endless as educators are challenged within this 6 week mentored course that promotes best practices and supports collaboration among educators from all over the nation.

Level 3 Training & Coaching

\$799

The Training & Coaching Course focuses on training the adult learner, self-evaluation as a trainer, and developing training flipcharts. Participants are required to facilitate a training event and prepare all training materials before a certificate is issued. The final phase of the Trainer & Coaching Course includes access to a global Training Resource Community, offering support from trainers all around the world, as well as additional resources. Individuals requiring Level 3 training prior to the release of the Inspire Level 3 course are welcome to participate and will be accommodated.

ActivClassroom Training Workshops

Teachers never stop learning — probably because there is always so much more to know, especially when it comes to technology in the classroom. That's why we've created a customizable, creative professional development program designed to help educators unite their curricula and teaching styles with classroom technology.

ActivClassroom Training Workshops are available at Promethean's facilities, or onsite at your school or district. Regional trainings are also available.

Workshops offer educators everything from getting started with ActivInspire, to getting results when training others in their school system. ActivStudio courses will continue to be available for a limited time while Promethean completes the migration to ActivInspire.

With a focus on creativity, connectivity and in-depth comprehension, the courses are much like an ActivClassroom lesson themselves—exciting, engaging, personal and everyday functional.

ActivStudio Foundations

ActivStudio Classroom Integration

ActivStudio Advanced

ActivInstructor (3 or 4 Days)

ActivInspire Core Essentials: Part 1

ActivInspire Core Essentials: Part 2

ActivInspire Beyond the Essentials

ActivInspire Advanced Techniques (coming in 2010)

ActivInstructor (3 or 4 Days)

Additional Workshops on Assessment Techniques with Higher Order Questioning Skills and Content Based sessions are also available.

Face to Face workshops can be customized for your school's curriculum needs, at an additional charge.

For additional details or to schedule a class, call [888-652-2848](tel:888-652-2848) or email Trainadmin@prometheanworld.com

ActivInspire Workshops

Core Essentials: Part 1

Want to jump start your ActivClassroom with our new ActivInspire software? The Core Essentials course provides step-by-step basic hands-on instruction in the ActivInspire software. In this one day class, teachers will build knowledge of the basic tools, explore the resources available, import Resource Packs, and discover online resources available to support their implementation. Participants will be given time to design a flipchart to take back to their classroom.

Core Essentials: Part 2

Upon completion of Part 2 of the ActivInspire Core Essentials training course, participants will be able to find prepared online resources and create basic flipcharts using ActivInspire tools and the Resource Browser. Step by step, hands on instruction will guide users to create interactive flipchart lessons through the use of layers, magic ink, connector tools, grids, and math tools. Participants will be given time to design a flipchart to take back to their classroom.

Beyond the Essentials

Are you ready for the next level? The ActivInspire Beyond the Essentials Workshop builds on the material learned in the ActivInspire Core Essentials classes. Participants will learn more advanced skills such as adding multimedia, creating containers and restrictors, linking documents and web sites, and explore additional ways to integrate ActivInspire into existing curriculum.

Advanced Techniques (available in 2010)

This highly interactive workshop explores the advanced features of ActivInspire and ways to develop personalized lessons and resources and customized curriculum materials to share with colleagues. Participants will modify their existing curriculum into interactive ActivClassroom lessons.

ActivInspire ActivInstructor (3 or 4 Days)

Are you a district or school technology trainer? The ActivInstructor workshops are designed to prepare advanced ActivInspire users to redeliver training in their school or district. This class includes hand-on practice in redelivery methods and discussion of Best Practices in Professional Development. The 4 Day Course also includes extras such as preparing a Professional Development Plan and developing questioning strategies using higher order thinking skills.

ActivAdministrator

Are you an administrator or curriculum specialist charged with assisting teachers with the implementation of the ActivClassroom? The ActivAdministrator Workshop helps you to understand the interactive capabilities of the ActivClassroom by Promethean. Participants will learn Basic ActivInspire skills, explore Promethean resources, and engage in meaningful dialog with colleagues regarding Best Practices, teacher observations and evaluations.

Training Prices: *also true for v3 training

On-site training (up to 12 participants): \$2,000 for 1 day, \$3500 for 2 days, \$4500 for 3 days, \$6,000 for 4 days

At the Promethean Training Academy: \$150 per person for 1 day, \$300 for 2 days, \$995 for 3 days, \$1150 for 4 days

*See a course catalog for additional information.

ActivStudio Workshops

ActivStudio Foundations

Want to jump start your ActivClassroom? The Foundations course provides step-by-step basic hands-on instruction in ActivStudio software. In this one day class, teachers will build knowledge of the basic tools, explore the resources available, and learn ways to integrate ActivStudio into existing curriculum.

ActivStudio Integration

Are you ready for the next level? The ActivStudio Intermediate class builds on the material learned in the ActivStudio Foundations class. Participants will learn more advanced skills such as working with objects, adding multimedia, creating links to documents and web sites, and explore additional ways to integrate ActivStudio into existing curriculum.

ActivStudio Advanced

This highly interactive workshop explores the advanced features of ActivStudio and ways to develop personalized lessons and resources. Participants will modify their existing curriculum into interactive ActivClassroom lessons.

ActivStudio ActivInstructor (3 or 4 Days)

Do you train or mentor other teachers? The ActivInstructor workshops are designed to prepare advanced ActivStudio users to redeliver training in their school or district. This class includes hand-on practice in redelivery methods and discussion of Best Practices in Professional Development. The 4 Day Course also includes extras such as preparing a Professional Development Plan and developing questioning strategies using higher order thinking skills.

ActivAdministrator

Are you an administrator or curriculum specialist charged with assisting teachers with the implementation of the ActivClassroom? The ActivAdministrator Workshop helps you to understand the interactive capabilities of the ActivClassroom by Promethean. Participants will learn Basic ActivStudio skills, explore Promethean resources, and engage in meaningful dialog with colleagues regarding Best Practices, teacher observations and evaluations.

*Available on-site only

Course Accreditation

Promethean has partnered with Seattle Pacific University to offer graduate credits for our online courses and training workshops. For additional registration information and documents, please go to www.PrometheanLearning.com/US (ActivStudio) or www.PrometheanPlanet.com/ActivLearning (ActivInspire)

Quarter hour credits are offered based on the date in which the course started. Course completion is graded on a pass/no credit scale, with exceptions honored by request for letter grades.

Each quarter hour is equivalent to 10 professional development hours; One quarter hour is equivalent to 2/3 of one semester hour. Credit fees are \$50 per credit hour, payable to SPU.

For questions and assistance, please contact us.learningadmin@prometheanworld.com
